

STO™ VAPORIZATION

The most advanced smoking equipment on the market.

STO™ vaporization represents a new generation of **patented smoke technology**. The system reduces smoking time, increases yield, and delivers a uniform smoky flavor with consistent results. At the same time, you benefit from lower energy consumption and reduced cleaning and maintenance costs.

STO™ is exclusively designed for use with Flavourstream smoke flavors. Already used **worldwide** by major multinational meat processors, STO™ enables simple installation and fast integration into existing production processes. The STO™ system is connected to the smokehouse using steam, compressed air, electrical power, and a control panel interface signal.

3-5%

Higher yield

1-10 min

Typical smoking time

Up to 30%

Lower smoke consumption and operating costs

- Short equipment delivery times.
- Simple installation for single and double systems.
- Customers benefit from up to 30 days to test the system before approval.

5% HIGHER YIELD
500.000 lbs
more bacon
per year

\$900,000
IN ADDITIONAL VALUE
FOR YOUR COMPANY
EVERY YEAR

Based on an annual production of 10.000.000 lbs and product cost of \$1.80 per lbs (*estimated cost for pork belly, curing, smoking, energy, labor and overhead). Not all manufacturers will realize increased output, as some may need to adjust their formulation or process. In those cases, the main benefits will be extra capacity, reduced smoking time, energy, labor and overhead costs

PRODUCTS	APPLICATIONS	DESCRIPTION	DOSAGE	FORMAT	LABELLING
SmokeStream™ ST0 75X	STO vaporization Atomizing	Natural Mixed Hardwood Flavor	Adjusted per application	Liquid	Natural Smoke Flavor
SmokeStream™ ST0 A75 U	STO vaporization Atomizing	Natural Apple Wood Smoke Flavor	Adjusted per application	Liquid	Natural Smoke Flavor
SmokeStream™ ST0 N BROWNER	STO vaporization Atomizing	Natural Wood Derived Browning Agent.	Adjusted per application	Liquid	Natural Smoke Flavor
SmokeStream™ ST0 10XX	STO vaporization Atomizing	Concentrated Natural Smoke Flavor From Mixed Hardwood	Adjusted per application	Liquid	Natural Smoke Flavor

FlavourStream™ offers a comprehensive range of products for various applications, and we would be pleased to discuss the complete portfolio with you.
